

B902L

Rseries

N-Com B902L R è la soluzione perfetta per i motociclisti che desiderano vivere la strada al massimo. Con il suo design compatto ed ergonomico e l'integrazione perfetta con i caschi NOLAN in policarbonato, grazie alla tecnologia Bluetooth® B902L R consente di rimanere connessi con i propri compagni di viaggio, ascoltare la musica preferita e seguire le indicazioni del navigatore in modo sicuro e semplice. L'esclusivo sistema ESS di segnalazione di presenza e di frenata posizionato sul retro del casco, un sistema luminoso che conferisce la denominazione L (light) sul nome del prodotto, assicura una maggiore sicurezza in caso di emergenza.

N-Com B902L R is the perfect solution for motorcyclists who want to experience the road to the fullest. With its compact and ergonomic design and perfect integration with NOLAN polycarbonate helmets, thanks to Bluetooth® technology B902L R allows you to stay connected with your travel companions, listen to your favorite music and follow the navigator's directions in a safe and simple way. The B902L R is equipped with the exclusive ESS presence and braking signaling system, which is a luminous system positioned on the back of the helmet. This system ensures greater safety in the event of an emergency by flashing when the rider brakes or slows down suddenly. The "L" in the product name stands for "light", which is a reference to this system.
